Administrative Units Data Dictionary

Entity Type Label	Entity Type Description	Attribute Label	Attribute Definition
BLM Administrative Unit Office Points	These point features depict the physical locations for active BLM Administrative Unit Offices (at the field office level and above). One physical location may administer more than one administrative unit, and have multiple offices co-located in that location. Therefore, point features may be coincident. This feature class includes attributes to store the feature level metadata information	ADM_UNIT_CD	Administrative Unit Code: The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure.
		ADMU_NAME	Administrative Unit Name: The official name by which the organization is known. An organization may include businesses, agencies, or corporations, but not individual persons.
		BLM_ORG_TYPE	BLM Organization Type: A name that indicates the type of organization that is being described. Design Considerations: The organization type (field office, district office, administrative state, or other) corresponding to the polygon.
		ADMIN_ST	Administrative State Code: An alphabetic abbreviation that represents each of the 50 states of the United States, the District of Columbia, the outlying areas of the United States, and associated areas. FIPS PUB 5-2
		Label	Label: Label for mapping
		Label_Full_Name	Label Full Name: Full name label for mapping
		City_Label	City Label: City Label for mapping
BLM Administrative Unit State Boundary	This feature class represents the polygon features for active BLM Administrative Unit Boundaries at the State level. Four separate feature classes, one for each administrative unit level, were derived from the original Administrative Units polygon to improve drawing speed and for individual display.	ADMIN_ST	Administrative State Code: An alphabetic abbreviation that represents each of the 50 states of the United States, the District of Columbia, the outlying areas of the United States, and associated areas. FIPS PUB 5-2
BLM Administrative Unit District Boundary	This feature class represents the polygon features for active BLM Administrative Unit Boundaries at the District level. Four separate feature classes, one for each administrative unit level, were derived from the original Administrative Units polygon to improve drawing speed and for individual display.	PARENT_CD	Parent Admin Code: The identifier for the administrative unit that has responsibility for other units. Design Considerations: The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure. The BLM administrative unit/office that is a combination of Administrative State Code and Administrative Office Code that fully identifies the geographic area which has jurisdiction over the lands.
		ADMIN_ST	Administrative State Code: An alphabetic abbreviation that represents each of the 50 states of the United States, the District of Columbia, the outlying areas of the United States, and associated areas. FIPS PUB 5-2
BLM Administrative Unit Field Boundary	This feature class represents the polygon features for active BLM Administrative Unit Boundaries at the Field level. Four separate feature classes, one for each administrative unit level, were derived from the original Administrative Units polygon to improve drawing speed and for individual display.	ADM_UNIT_CD	Administrative Unit Code: The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure.
		ADMU_NAME	Administrative Unit Name: The official name by which the organization is known. An organization may include businesses, agencies, or corporations, but not individual persons.
		BLM_ORG_TYPE	BLM Organization Type: A name that indicates the type of organization that is being described. Design Considerations: The organization type (field office, district office, administrative state, or other) corresponding to the polygon.
		APPRV_DT	Approval Date: The date on which the BLM Washington Office or Assistant Secretary, Land and Minerals Management approved or concurred with the change to the organization unit number, name and/or administrative unit boundaries.
		EFF_DT	Effective Date: The date on which an area of BLM land becomes the responsibility of a BLM administrative unit.

		ADMU_ST_URL	State Office URL : The URL of the State Office website. The standard format for a BLM state website is http://www.blm.gov/xx/st/en.html where "xx" is the 2-character state abbreviation.
		PARENT_CD	Parent Admin Code: The identifier for the administrative unit that has responsibility for other units. The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure. The BLM administrative unit/office that is a combination of Administrative State Code and Administrative Office Code that fully identifies the geographic area which has jurisdiction over the lands.
		PARENT_NAME	Parent Name: The official name by which the organization is known. An organization may include businesses, agencies, or corporations, but not individual persons.
		ADMIN_ST	Administrative State Code : An alphabetic abbreviation that represents each of the 50 states of the United States, the District of Columbia, the outlying areas of the United States, and associated areas. FIPS PUB 5-2
BLM Administrative Unit Other Boundary	This feature class represents the polygon features for active BLM Administrative Unit Boundaries at the Oher level. Four separate feature classes, one for each administrative unit level, were derived from the original Administrative Units polygon to improve drawing speed and for individual display.	ADM_UNIT_CD	Administrative Unit Code: The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure.
		ADMU_NAME	Administrative Unit Name: The official name by which the organization is known. An organization may include businesses, agencies, or corporations, but not individual persons.
		BLM_ORG_TYPE	BLM Organization Type: A name that indicates the type of organization that is being described. Design Considerations: The organization type (field office, district office, administrative state, or other) corresponding to the polygon.
		APPRV_DT	Approval Date: The date on which the BLM Washington Office or Assistant Secretary, Land and Minerals Management approved or concurred with the change to the organization unit number, name and/or administrative unit boundaries.
		EFF_DT	Effective Date: The date on which an area of BLM land becomes the responsibility of a BLM administrative unit.
		ADMU_ST_URL	State Office URL : The URL of the State Office website. The standard format for a BLM state website is http://www.blm.gov/xx/st/en.html where "xx" is the 2-character state abbreviation.
		PARENT_CD	Parent Admin Code: The identifier for the administrative unit that has responsibility for other units. The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure. The BLM administrative unit/office that is a combination of Administrative State Code and Administrative Office Code that fully identifies the geographic area which has jurisdiction over the lands.
		PARENT_NAME	Parent Name: The official name by which the organization is known. An organization may include businesses, agencies, or corporations, but not individual persons.
		ADMIN_ST	Administrative State Code : An alphabetic abbreviation that represents each of the 50 states of the United States, the District of Columbia, the outlying areas of the United States, and associated areas. FIPS PUB 5-2
